

# VESA Float Copy Holder

## Keep documents inline and save space

The VESA Float Copy Holder has been designed to attach to an existing monitor on a monitor arm via the VESA fitting.

## Keep documents inline

The height and angle of the document plate are adjustable to suit individual requirements.

By attaching to the VESA fitting, the VESA Float moves when the monitor does, ensuring that documents, tablets and smart phones remain within the same line as the monitor and are ideally positioned.

## Product Code

OPCVFC

## Save space

Floating below the monitor saves valuable desk space.

The ledge that runs along the bottom can support documents, smart phones or tablets.

## Plate dimensions

Width (top) 375mm

Width (bottom) 300mm

Height 255mm

Ledge depth 15mm
